

Carnival Flags

Flags are used in carnival costume design to create height and movement. You can dance with them and create choreographed, synchronised flag waving with other flag bearers.

They can be seen from afar by the audience which creates excitement.

Flags come in all shapes and sizes. Experiment with your own ideas to create your very own colourful, personalised flag. HAVE FUN!

Try making symmetrical or geometric patterns with cut out paper, or fabrics on card.

You can also draw, colour, paint, print or stencil onto card or paper and some fabrics.
